

Families Affected by Autism

**11am-1pm Friday 20th February upstairs in the meeting room
Cwmbran Library.**

We are a support group for all in the family (mums, dads, older siblings, carers and grandparents) affected by autism. Our aim is to meet and help support each other by very informal discussions and taking some time to participate in activities. It's a chance to meet other parents and an opportunity for you to talk about your experiences in a friendly, helpful, supportive environment. You will be helping to shape your future and the future of other attendees and hopefully develop this group and make a real positive difference for you and your family.

Games and toys for children that come along. Tea and Coffee and squash will also be available.

We are holding an art competition for anyone that attends. Bring along a drawing or draw one while you are there. All materials are provided! (Grown ups welcome to enter too!) Small prizes for those who enter and the work will be displayed on the Facebook page if you wish.
